

## Portsmouth's own Luji Events launches Spokesbury: Harvest & Haunt - a brand-new Halloween event for Hampshire this October

Portsmouth, 23/09/2025: [Luji Events Ltd](#) launches brand-new Halloween immersive event, Spokesbury: Harvest & Haunt. Running from October 29th to November 2nd, at Rookesbury Park Wickham, Spokesbury promises to offer Hampshire a new Halloween experience by blending daytime family-friendly Halloween fun with frightening scare evening experiences, along with entertainment and food & drink offerings during the day and night hours.

Open to all ages, Spokesbury: Harvest and Haunt's daytime fun brings the very best of Halloween to Wickham. Bring the family for half-term fun or gather your friends to start a new seasonal tradition, there is plenty to enjoy.

Families can enjoy a variety of Halloween fun including: magic lessons with witches and wizards, a Halloween stage show, character meet-and-greets, flying lessons with the Aerial Academy, a hay bale maze, mud kitchen, a cosy film tent and a visit to our Pumpkin shop - which is all included with entry.

Director of Luji Events, Lucy Watts, offers an insight into her vision for Spokesbury: "Coming from Portsmouth, I am so proud to be bringing something new to this area. I've noticed that we're definitely lacking large-scale Halloween experiences locally, and I wanted to create something that feels magical, memorable, and also affordable for families. A lot of what we're offering for kids is included in their ticket price, because for me, it's important that families can enjoy the full experience without breaking the bank."

Visitors can expect a range of food and drink offerings at Spokesbury. Spokesbury will welcome visitors with a vibrant, welcoming zone complete with themed bars, tasty street food, and cosy corners where you can relax and soak up the vibe. Whether you're here for the scares or looking for a laid-back evening with a cocktail or a hot drink in hand - there's something for everyone.

As the sun sets, the event's three scare walkthroughs will open up to those brave enough (13+). The haunted halls of *The Sisters of Silent Mercy*, the scream-filled rooms of *The Final Cut* with Dr Alaric Voss, and the post-apocalyptic chaos of *Biohazard 31*.

Lucy said: "I've worked hard to elevate the evening side of Spokesbury. Beyond the scare experiences, we've layered in live music, themed bars, immersive performers, and so many little touches that really bring the Halloween vibe to life. My goal is that whether you're coming with your kids during the day, or with your mates for a night of scares and entertainment, you'll walk away feeling like you've had a truly unforgettable experience."

Alongside the terrifying scare walk-throughs experiences, Spokesbury invites visitors to enjoy the night with friends and family, with delicious food and drink, spooky entertainment from DJ sets to live entertainment, tarot card readings, fire performers, film screenings, and cosy firepits for marshmallow toasting and memorable photo moments.

If you're looking for half-term family activities, cosy autumnal Halloween fun, or spine-chilling night-time thrills, Spokesbury has something for everyone!
